

BREATHABLE SLICE ENCLOSURES

BREATHABLE SPLICE ENCLOSURES

BREATHABLE SPLICE ENCLOSURES

At ANTEC, we don't make adhesive bandages—just serious broadband technology. Including rack systems, fiber cabinets and a wide range of enclosures for splicing, protecting and storing fiber as you need it. Whether you're dealing with underground, handhole, pole mount or pedestal fiber, ANTEC offers the most flexible, interoperable outside plant solutions on the market today. Part of our complete broadband network solutions.

SERIOUS TECHNOLOGY FROM ANTEC.

RF LINK 870
MINI-BRIDGER

AT ANTEC, we don't trade in pachyderms – just serious broadband technology like our RE LINK 870 MINI-BRIDGER. This flexible, high-gain, high-level PHD platform is readily adaptable to numerous trunk and feeder designs. And it's just one example of the complete broadband network solutions we're creating.
